Introduction

Thank you, for downloading this cool tool from CAL2CAL. This tool is designed primarily to give you one more reason to make more effective use of your PDA. This tool lets you convert one type of unit to another unit. Currently this tool readily converts Temperature, Speed, Distance, Area, Mass, Density, Light, Time, Volume, Pressure, Flow and Power. Support for more units of conversion is being added in this tool, we recommend visiting us frequently to get the latest update on this software tool.

This tool is so intuitively designed that you may not need to use this User Guide at all.

We are sure that you will recommend this tool to your friends and other contacts. Please visit www.cal2cal.com to check for updates and better-modified versions of this tool.

“Unit2Unit© conversion at the tip of your stylus !!?”

Installation

Method One

Use Install Tool of Palm Desktop Application on your PC:

1. Select “User” in Install Tool.
2. Click on “Add” button.
3. Select “**C2C_U2U.PRC**” in the Open dialog box for installation.
4. Click on “OK” button in the Open dialog box.
5. Click on “Done” button.
6. Place your PDA on the cradle and HotSync.

Alternate Method

1. Double-click on “**C2C_U2U.PRC**” File.
2. Select appropriate name from User drop-down list in Install Tool.
3. The Install Tool will open up with the selected file added to the list of files selected for install to your PDA.
4. Click on “Done” button.
5. Place your PDA on the cradle and HotSync.

After successful HotSync operation Unit2Unit ICON appears under the “Unfiled” category of your PDA.

User Guide

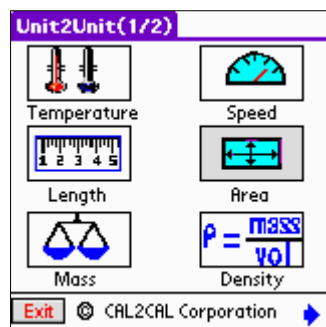

Working with Unit2Unit

1. Tap on the Unit2Unit ICON to launch the application.
2. Tap on [ENTER] opens disclaimer for the first time use, which is required to be accepted to proceed. Next time onwards the application starts straightaway by tapping on [ENTER].

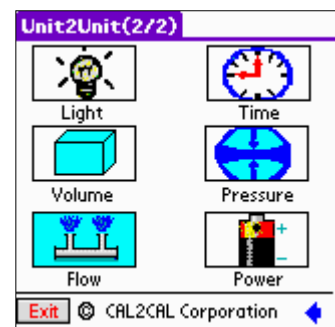

Application Area

The application area is divided into two screens providing access to frequently used conversions in the first screen and rest in the second screen. As support for more conversions becomes available, screens will be updated appropriately.

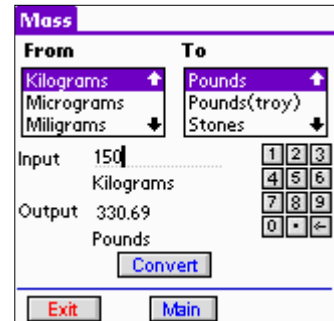

Clicking on \leftarrow or \rightarrow arrows at bottom right corner of application lets you navigate between multiple screens.

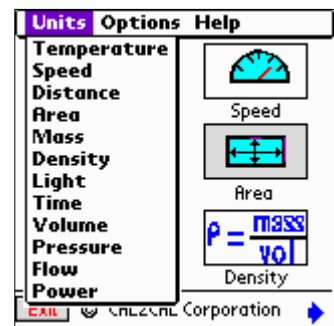

Unit Conversion

1. Select the desired category by tapping its icon.
2. Select desired “**From**” and “**To**” unit.
3. Enter the Input value.
4. Click on [CONVERT].
5. See the result in Output Unit.
6. Click on [EXIT] to close the Application.
7. Click on [MAIN] to return to the Application screen.

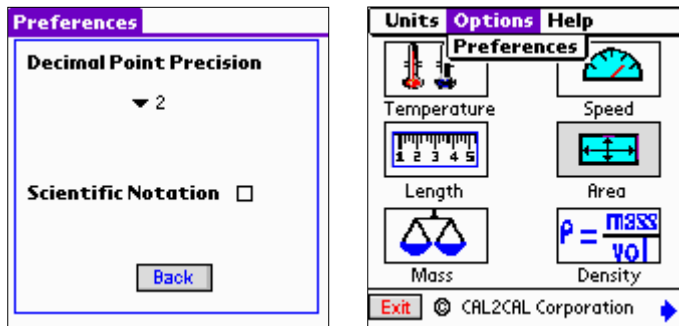

Menu Options

1. Open the Menu bar by either tapping on the Menu icon or on the application title bar.
2. The Units menu provides an alternative path to access the conversion units.
3. The Options menu provides a mechanism for setting user preferences.

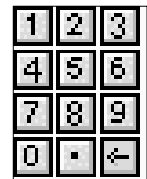

Preferences:

Set your preferences for output Decimal Point Precision and Scientific Notation.

Onscreen Keyboard

The application features an onscreen keyboard that provides the user with quick access to enter input values; without using Graffiti or inbuilt Palm keyboard, this facility lets you input data quickly and avoids blocking of main application screen by Palm Keyboard.
