VirusAttack™	User Documentation	Version 2.0
--------------	--------------------	-------------

## 1. Introduction

Virus Attack is a highly challenging arcade type game. Your goal is kill all the viruses by forming multiple pills with the same color as the virus. Each level has more viruses and game pace increases. You must have good coordinating skills to pin point the virus and destroy it.

Virus Attack requires PalmOS® 5.0 and higher. Sound is only available on the Palm® Tungsten T, C and Palm® Z71.

## 2. System Requirement

- PalmOS® 5.0 and higher
- Sony Color Clie with PalmOS® 5.0 or higher
- 150K of memory

### 2.1 Compatibility

- Palm® Tungsten T, Palm® Tungsten C and Palm® Zire 71,
- Sony Color Clie with PalmOS® 5.0 or higher

## 3. Installation

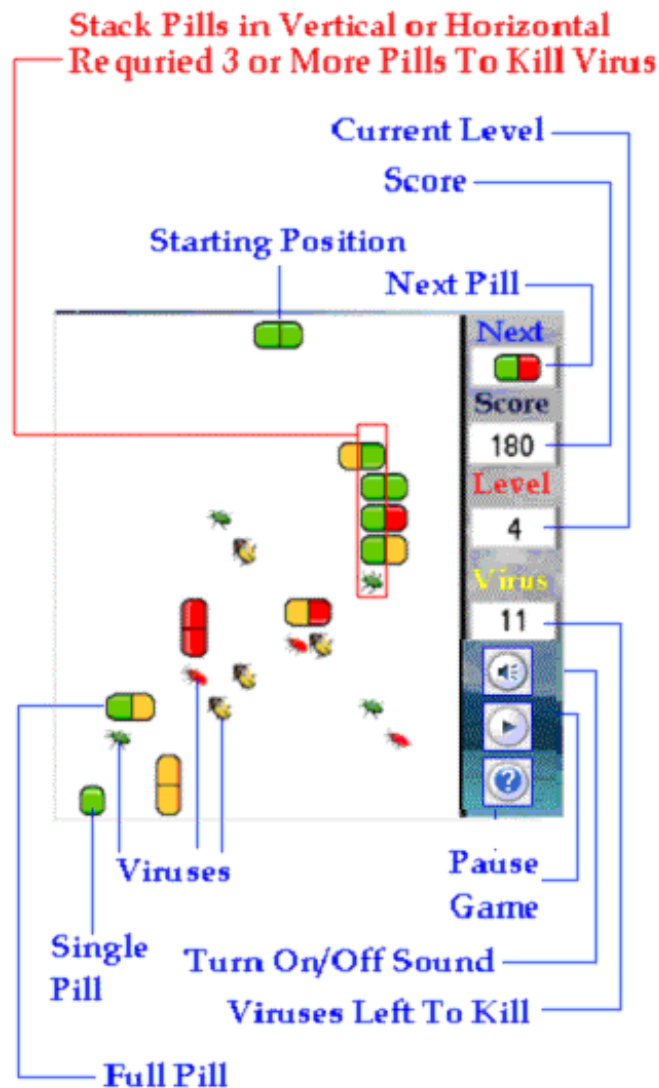

To install Virus Attack double click on the file VirusAttack.prc and then press the HotSync® button on the cradle. The HotSync® manager will install the program on to your Palm.

## 4. Launching Virus Attack™

From your Launcher look for the icon **VirusAttack** and tap on it to launch it. If you cannot find the icon use the scroll bar and scroll down.

## 5. User Interface

### Moving the Pill

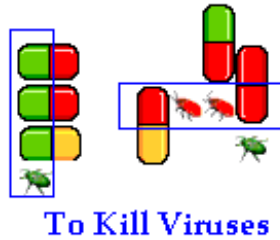

The Pill will always start from the top and move its way down to the bottom. You can move the pill left to right using the buttons (See below Diagram). The pill will stop moving if it lands on a Virus, another Pill or reaches the bottom in which case a new Pill will start from the top again. You can rotate the Pill as it moves down.

### End of Game

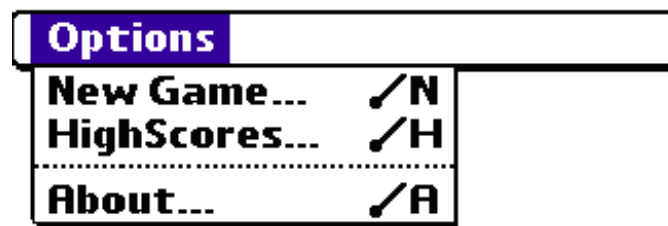

The game ends if the pill reaches the top.

## Kill Viruses

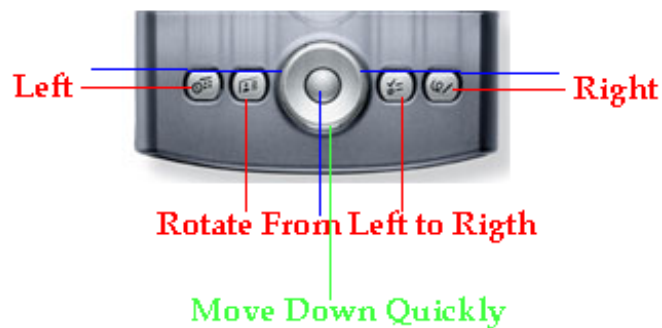

The only way to kill a Virus is to stack the same color pill with the virus on top of the virus or place the pill next to the virus. You need 3 or more same color pills to kill the virus. You can also kill multiple viruses.

## 5.1 Menu

## 5.2 Controls

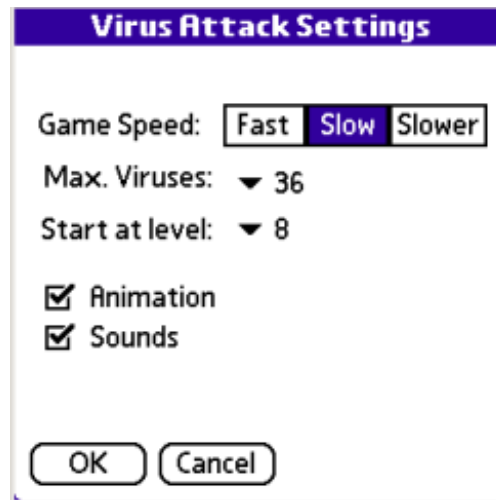

## Repeat Moves

VirusAttack™	User Documentation	Version 2.0
--------------	--------------------	-------------

By depressing a button you can repeat the move. This will allow you to move the pill quickly from left to right. Only the Left  (DateBook) and Right  (NotePad) hard keys work properly. The 5 way D-Pad Left and Right will not give you the same results.

## 6. Settings

To make the game faster select the game speed toggle box.

You can set the maximum number of viruses allowed in each level.

## 7. User License

(a) Toysoft, Inc. Hereby grants you a non-exclusive license to use its accompanying software product ("Software") according to the following agreement:

(b) You may: Distribute the Software if your application is freeware.

(c) You may not: Distribute the Software if your application is shareware or commercial.

(c) You may not: permit other individuals to use the Software except under the terms listed above; modify, translate, reverse engineer, decompile, disassemble, or create derivative works based on the Software; copy the Software (except for back-up purposes); rent, lease or otherwise transfer rights to the Software; or remove any proprietary notices or labels on the Software.

**Toysoft, Inc. reserves all rights not expressly granted to Licensee.**
